

Food Safety/Quality Commitment Statement

POLICY

The President, Management Staff, and the Employees of Reliable Products Inc. are committed to supplying our customers with safe, high quality products at all times. All of our products will meet or exceed the requirements as set forth by our customers and all governing and regulating agencies.

We will strive to continuously improve our Quality Management and Food Safety Systems. This includes the on-going monitoring and measurement of our processes, as well as effective communication between staff, our suppliers and especially our customers.

PURPOSE

The Senior Management Team will ensure resources are available to support the development, implementation, and maintenance of FSMA and the GFSI-based SQF Edition 8.1 Food Safety Code for Manufacturing. We are committed to providing the proper staffing and training to support our Food Safety and Quality Systems. All employees are and will continue to be provided with training regarding the GFSI-based SQF Food Safety and Quality Standards.

RESPONSIBILITIES

It will be the responsibility of each employee both individually and collectively for ensuring the food safety and quality of our products. Each employee has the responsibility to report food safety and quality problems to those with authority to take action.
